## *About the BRIDGE project*

*The BRIDGE project strengthens the protection of children and youth on the move affected by gender-based violence (GBV). It is implemented by Terre des hommes and its partners in Belgium, Greece, Hungary, Malta, Romania and other EU countries.*

*BRIDGE is financed by the European Commission through the Rights, Equality and Citizenship programme.*

*Sexual and gender-based violence refers to any act that is perpetrated against a person's will and is based on gender norms and unequal power relationships. Studies point to alarming accounts of gender-based violence (GBV) affecting refugee and migrant children and youth in the European Union.*

## *About Terre des hommes*

*Terre des hommes (Tdh) is the leading Swiss organisation for children's aid. Active in around 40 countries, Tdh works with its own teams and/or local and international partners to develop and implement field projects which significantly improved the daily lives of over four million children and members of their communities in 2019, in the domains of health, protection and emergency relief.*

*Terre des hommes Foundation has been operating in Romania for more than 25 years with the aim to improve living conditions for vulnerable children and youth. Currently, our three main areas of intervention are: (1) Strengthening child protection and juvenile justice systems, (2) Protection of children and youth affected by migration, and (3) Social inclusion of Roma and other vulnerable groups. We work at community level with local actors to build and strengthen the safety network for children and young people. We aim to prevent risk situations and strengthen the capacity of adults (caregivers and professionals) to support children, by offering specific trainings. Every year the total number of our beneficiaries is about 10.000 children or more.*
